### *Our Mission*

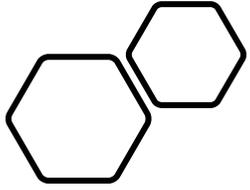

Our mission is to bring sustainability to the heart of the hair and beauty industry.

### *Our Story*

Working as a hair stylist and salon owner, Moo & Yoo co-founder Suzie became frustrated that many of the salon products she was using were harsh and irritated her skin.

She also became increasingly exasperated that so many plastic containers were the norm in the hair industry.

In the absence of anything suitable being available in the UK, Suzie and her daughter Olivia joined forces to create their own solution, bringing gentle and natural products in fully recyclable glass bottles and jars to UK customers. Before long the whole family had joined in the journey and Moo & Yoo was born.
